

TIPPOO TIB HAS GONE

Tipoo Tib is dead. Such is the news from Zanzibar. It was Henry M. Stanley who made

the old Arab chieftain famous. Hamed Bin Mohammed, as he was known among the faithful, was a professional "first aid" to explorers, and a good deal of money he made out of it. Before Stanley met him, Tipoo Tib had taken hold of it in a small way by escorting Explorer Cameron 200 miles south of the equator.

Stanley had some trouble in making a deal with Tipoo Tib, who seemed to want the best of it, and then some. It was finally arranged that at the end of six months Stanley should turn back, unless traders from the west coast could be encountered. After long preparation and preliminary advances toward the interior, the redoubtable Arab had two parties on the march—one of 300 men, women and children, and one of 400 enrolled fighting men, (many armed with guns), and Tipoo Tib's slaves and harem. When the great dark forest was reached, the Arabs tried to hack out, but Stanley, exhorting and bribing, and got the party to brave the savages, a smallpox epidemic and the myriad terrors of the dark continent for weeks longer. At length, Tipoo Tib quit, tired of the constant fighting, and Stanley pressed on with a hand full of men. He reached the Atlantic coast, after being out 999 days, solving the mystery of the Congo river's source and flow.

Tipoo Tib is said to have bought and sold 10,000 slaves in his time.

HAY FEVER ABOLISHED.

Medical Science Discovers a Cure for This Malady by Breathing Hyomel.

Stomach dosing cannot cure hay fever. A change of climate is the only treatment that gives any relief, and Hyomel, which mercurates the air you breathe, acts upon this principle, giving in your own home a climate as healthy as that of the White Mountains or other health resorts.

The complete Hyomel outfit costs but \$1, extra bottles 50 cents. J. H. O'Reilly & Co. have seen the good effects following the use of Hyomel in so many cases of hay fever that they are willing to sell the treatment with the understanding that if it does not give satisfaction, the money will be refunded to you.

Forced to Starve.

R. E. Leek, of Concord, Ky., says: "For 20 years I suffered agonies, with a sore on my nose and throat, sometimes that I could not eat. After vainly trying everything else, I cured it with Bucklen's Arnica Salve. It's great for burns, cuts and wounds. At all drug stores; only 25c."

Cholera Infantum.

Ruth, the little daughter of E. N. Dewey, of Agnewville, Va., was seriously ill of cholera infantum last summer. "We gave her up and did not expect her to live from one hour to another," he says. "I happened to think of Chamberlain's Cholera and Diarrhoea Remedy and got a bottle of it from the store. In five hours I saw a change for the better. We kept on giving it and before she had taken the half of one small bottle she was well. This remedy is for sale by all dealers."

From this terrible ailment, which restored my health, strength, and now I can walk as straight as an arrow. They simply wonder how I got well. For sale by all dealers."

Mrs. B. Lindsay, of Fort William, Ontario, Canada, who has suffered quite a number of years from dyspepsia and great pains in the stomach, was advised by her druggist to take Chamberlain's Stomach and Liver Tablets. OFFICIALS VISITING MINERAL DISTRICTS

Special Correspondence.

San Pedro, N. M., July 12.—Waldemar Lindgren, in charge, and Mr. Louis Caryl Graton, assistant, of the United States geological survey, are in the San Pedro and Golden districts gathering data for a report and survey of the mining districts of New Mexico. From here they will go to Dolores, thence to other parts of the territory, every portion of which will be visited. This work will consume from eight to nine months, after which they will return to Washington to supervise the publication by the interior department of a volume covering the entire field of mining enterprise in New Mexico.

The work will be very complete, and will comprise reliable mining maps of the whole territory, as well as extensive notations on geological and mineral formation. This should be an important aid to the mining industry and there is no doubt that the publication will be in great demand as soon as issued.

Sherman and J. B. D. Heron.—Los Angeles Times.

TOM JOHNSON'S MOTHER WAS A SOUTHERN BELLE

MRS. ELLEN LOFTUS JOHNSON. This is the latest picture of her, taken twelve years ago. It shows a strong resemblance between her and her noted son.

At Fort Hamilton, Mrs. Ellen Johnson, 71 years of age, widow of Colonel Albert W. Johnson, is reported very low. She is the mother of Mayor Tom Johnson of Cleveland, who is very devoted to her. She was Miss Ellen Loftus, of Jackson, Tenn., while attending school at Georgetown, Ky., she met her future husband, who was also a student in that town, and they were married in 1853. Before the war they lived at Helena, Ark., where Mrs. Johnson's beauty and culture produced a decided impression.

Albert W. Johnson became a colonel in the Confederate army, and the vicissitudes of war took the family to Millidgeville, Tenn. Here Tom, at the age of 11 years, while his father was at the front, aided materially in supporting his mother by selling papers. After the war the Johnsons removed to Louisville where Tom became famous, and prospered as a street railway manager. Colonel Johnson's fortunes improved, and some years ago he removed to the east, where Mrs. Johnson continued to make her home.

LOSES HIS LEFT EYE

W. E. BAKER OF LAS CRUCES MEETS WITH A SERIOUS ACCIDENT WITH TELEPHONE WIRE ON MONDAY.

A dispatch from Las Cruces says: W. E. Baker, well known in New Mexico and who until recently was official stenographer for the Fifth district and who is now clerk to the United States attorney and also manager of the Las Cruces Telephone company met with a very painful accident Monday which will result in the entire loss of the sight of his left eye. He went about dusk to investigate a cross wire and had to cut same, when

the old Arab chieftain famous. Hamed Bin Mohammed, as he was known among the faithful, was a professional "first aid" to explorers, and a good deal of money he made out of it. Before Stanley met him, Tipoo Tib had taken hold of it in a small way by escorting Explorer Cameron 200 miles south of the equator.

Stanley had some trouble in making a deal with Tipoo Tib, who seemed to want the best of it, and then some. It was finally arranged that at the end of six months Stanley should turn back, unless traders from the west coast could be encountered. After long preparation and preliminary advances toward the interior, the redoubtable Arab had two parties on the march—one of 300 men, women and children, and one of 400 enrolled fighting men, (many armed with guns), and Tipoo Tib's slaves and harem. When the great dark forest was reached, the Arabs tried to hack out, but Stanley, exhorting and bribing, and got the party to brave the savages, a smallpox epidemic and the myriad terrors of the dark continent for weeks longer. At length, Tipoo Tib quit, tired of the constant fighting, and Stanley pressed on with a hand full of men. He reached the Atlantic coast, after being out 999 days, solving the mystery of the Congo river's source and flow.

Tipoo Tib is said to have bought and sold 10,000 slaves in his time.

one end of the wire he just cut sprung back, entering the eye and penetrating to the ball of same. He went at once to Dr. McBride, who relieved him of the intense suffering and yesterday morning he went to El Paso to consult a specialist.

FOREST FIRE RAGING ALONG THE RIO GRANDE

On July 2, a ground fire started on the northern boundary of the Pecos forest reserve along the Rio Quemado and then followed the bed of La Jolla creek. Ranger Dockeloff reported the matter to Supervisor Kneipp, at Santa Fe, and then he with five men went to the scene and fought with the blaze from the 4th until the 8th of July. Supervisor Kneipp has received word from the men that the fire is now entirely out and that very little damage was done. The timber was severely harmed at all, and then only a slight charring to about six feet above the ground. The fire is supposed to have been started by sheep herders.
